Data Processing Intern

PROFESSIONAL SUMMARY

I am a Business Statistics student at University of Economics Ho Chi Minh city, and I have Google's Data Analytics and Business Intelligence certificate. My technical expertise spans Excel, SPSS, SmartPLS, PowerBI, SQL and R programming demonstrated through both scholarly research and personal projects where I have transformed complex datasets into actionable business recommendations. Driven by an analytical mindset and passion for problem-solving, I consistently seek opportunities to apply data-driven approaches to tackle business challenges.

DATA ANALYTICS PROJECTS

[Hoa Tho Brand Positioning & Identity Analysis] | [Link](#) | [Github](#) | (April 2025 – May 2025)

Tools: Excel, SPSS, PowerBI, Data Modeling, DAX calculation, Data Visualization

- Processed and analyzed survey data (Excel, SPSS) to evaluate Hoa Tho's brand health against competitors.
- Developed multi-page interactive Power BI dashboards, featuring tailored visualizations and demographic drilldowns (city, age, income) to present complex findings.
- Synthesized insights and formulated data-driven strategic recommendations for brand, positioning, and communication enhancement.

[Walmart Ecommerce Dashboard] | [Link](#) | [Github](#) | (March 2025 – April 2025)

Tools: Excel, PowerBI, DAX, Power Query, Data Visualization

- Built comprehensive Power BI dashboards for ecommerce analysis, leveraging Power Query for data transformation and DAX for key metrics (Profit Margin, YoY Growth, Return Rate).
- Visualized KPIs, sales trends, product performance, and geographical profitability to identify drivers and areas for improvement.
- Delivered insights supporting sales optimization, category management strategies, and root cause analysis of product returns.

[SQL Data Warehouse Project] | [Link](#) | [Github](#) | (January 2025 – March 2025)

Tools: Excel, SQL Server, ETL Principles, Data Modeling, Draw.io

- Engineered end-to-end SQL Data Warehouse implementing ETL processes from simulated CRM/ERP sources.
- Designed multi-layer architecture (Bronze, Silver, Gold), performed data cleansing/transformation (Silver), and modeled Star Schema (Gold) for optimized BI reporting and querying.
- Enabled data-driven decision-making through consolidated reporting on sales trends, customer patterns, and KPIs.

[Hospital Emergency Room Dashboard] | [Link](#) | [Github](#) | (November 2024 – December 2024)

Tools: Excel, Power BI, DAX, Data Visualization

- Developed interactive Power BI dashboards analyzing ER operations KPIs
 - Utilized DAX for complex calculations and created insightful visualizations (heatmaps, charts, grids).
 - Provided actionable insights for optimizing staffing, improving patient throughput, and enhancing resource allocation.
-

RESEARCH & PUBLICATIONS / ACADEMIC CONTRIBUTIONS

[Socio-economic Factors & PM2.5 in Vietnam (EKC Analysis)] (November 2024 – Present)

Roles: First Author, Data Analyst & Writer,

Tools: R programming, Stata, GISMap, Visualization, Advanced Econometrics, Hypothesis Testing

- Contribution: Leading econometric modeling using provincial data to test EKC hypotheses.
- Venue: Price B UEH Young Researcher Awards (2025).
National Olympic Econometrics (Ongoing - 2025).

[Factors Influencing E-Government Acceptance] (January 2025 – March 2025)

Roles: Co-authors, Main data Analyst & Writer.

Tools: Excel, SmartPLS.

- Contribution: Analyzed survey data using extended extends the Unified Theory of Acceptance and Use of Technology models.
- Venue: Price B UEH Young Researcher Awards (2025)

National Scientific Conference: “Economics, Law, and Digital Technology Policy as Drivers for National Development in a Rising Era”. (2025)

[Human Capital and Sustainable Economic Growth in Developing Countries] (October – December 2024)

Roles: Co-Author, Main data Analyst & Writer.

Tools: Stata, Advanced Econometrics, Hypothesis Testing.

- Contribution: Performed econometric analysis on panel data to assess human capital's impact.
- Venue: College of Business Research Programme (2024).

[Factors Influencing AI Chatbot Acceptance among Undergraduates] (January 2024 – March 2024)

Roles: Co-authors, Data Analyst & Writer.

Tools: Excel, SmartPLS, Hypothesis Testing.

- Contribution: Applied statistical modeling to test a three-stage acceptance framework and moderation effects.
- Venue: Price C UEH Young Researcher Awards (2024).

[Factors Influencing Second-hand Clothing Donation Behavior in HCMC] (January 2024 – May 2024)

Roles: Co-authors, Data Analyst & Writer.

Tools: Excel, Exploratory Factor Analysis, SPSS.

- Contribution: Analyzed survey data using extended Theory of Planned Behaviour models.
- Venue: The 2nd International Conference “Resilience by Technology and Design” (RTD 2024).

TECHNICAL SKILLS

- **SQL:** Querying, Data Extraction, Data Manipulation, Data Aggregation, Subqueries
- **Microsoft Excel:** Pivot Tables, LOOKUP, Functions, Data Cleaning, Data Preparation, Charting
- **Power BI :** Dashboard Development, Data Visualization, DAX, Power Query, Data Modeling, Reporting
- **R programming:**

SOFT SKILLS

- Analytical and critical thinking, communication, attention to detail, organization and time management, adaptability and willingness to learn, team-working.

EDUCATION & CERTIFICATIONS

- **Bachelor’s degree** – University of Economics Ho Chi Minh city [2022 - 2026]
GPA up to now: **3.54/4.0**
- **Relevant Certifications & Competiton:**
 - Google Data Analytics Certificate by Coursera [Link]
 - Google Business Intelligence Certificate by Coursera [Link]
 - TOEIC: 725/990 by IIG
 - International Quant Championship (2024) by World Quant Brain [Link]
 - + Achieved Gold Level status globally.
 - + Ranked 1st place in the University Round.

EXTRACURRICULAR ACTIVITIES

Technology Team Member – UEH Technology & Digital Communication (TDC) [2022 - 2026]

- Collaborated within the tech team to organize and promote initiatives focused on digital transformation and emerging technology trends, enhancing technological literacy and engagement among UEH students.
- Supported the execution of workshops designed to bridge the gap between academic learning and practical technology application.

Professional Board Member – UEH Young Economic Research Club (YORE) [2022 - 2026]

- Actively involved in the planning, organization, and execution of university-wide academic competitions and research-focused events aimed at enhancing economic knowledge and analytical capabilities among students.
